GOD AND MUSIC

Brand New Book ***** Print on Demand *****.IN this book Dr. Edwards has sought to establish the relation between Divine truth and the art of music. His contention is that the heart of man refuses to satisfy its undying hunger for a personal God with anything short of reality. He says that if any science or art supplies a help toward meeting this craving it will find an ardent welcome. The art of music promises such aid, as it has long claimed to be a proper medium of communication between God and man. Dr. Edwards s arguments will strongly appeal to all lovers of music. He believes that the being and disposition of God are clearly intimated and illustrated in music, harmony being the keynote of each. All the author s evidence is presented clearly and systematically, and much light has been thrown on the extremely interesting and difficult subject of musical aesthetics. One chapter has a special interest of its own. It is entitled Musico-Therapy, and presents the practical utility of music as a healer of disease in many forms, especially of the nerves and brain. The evidence accumulated is of undoubted value, and it goes a long way toward proving the statement of the late Rev. H. R. Haweis that Music will some day become a powerful and acknowledged therapeutic agent. The book has much charm and scholarly quality, and it is a distinct addition to musical aesthetics. - The New Music Review and Church Music Review, Volume 7 THIS book is a rhapsody on music and the religious inspiration which it may give. The subjects treated in the different chapters are: What is Music? Music in Nature, Wherefore? Law in Music, Correlations...
